Media
Connect to your smartphone and sync to play music, or playback play music stored on the memory card.

Sleep Monitoring
This function monitors your quality of sleep and shows on the watch. Besides, it wakes you up just on time.

Synchronizes Phonebook
After connecting smartphone via Bluetooth, G1 can sync phonebook of the smartphone to watch. You can view the watch instead of the smartphone and you can keep the smartphone in the pocket.

Synchronizes Phone Calls
After connecting smartphone via Bluetooth, G1 can make phone call directly.

Synchronizes Incoming Calls
When incoming call G1 will ring in watch and show incoming phone number. You can answer the call from G1 instead of smartphone and it's convenient to take and save time, which answer the incoming call.

Synchronizes Messages
After installing related app on your smartphone, G1 will notify incoming messages which can be viewed on the watch, and also remind email, Skype / Whatsapp messages, etc. (Note: Need IOS 9.0)

Pedometer
The watch can record walk steps wherever and whenever, and counter walk distance, fat and calorie consumption.

Sedentary Reminder
Take a rest to avoid fatigue. 70 percent people are too busy to take the walk during their office hours. Our smart watch has Sedentary Reminder function to keep you healthy.

Safe Driving with Bluetooth Call
Function as Bluetooth headset. Driving without distraction.
